Bachelor's degrees:

[Early Childhood Education](#) and [Primary Education](#)

4-year degrees (30 ECTS each term)

Speciality in English

Modules	ECTS	Terms	Years
✓ English I (A2)	6	1	1
✓ English II (B1)	6	1	2
✓ Morphosyntax and Semantics in the English Language	6	2	3
✓ School Placement I and II	20	2	3 and 4
✓ English Phonics	6	1	4
✓ Literature & Culture of English-Speaking Countries	6	1	4
✓ Rhythm and Games	6	1	4
✓ Second Language Learning	6	1	4
✓ Bachelor's Degree dissertation	10	2	4

Course Title:	English I (A2)
Degree programme:	Bachelor's Degree in Infant and Primary Education
Study level:	Bachelor's Degree
ECTS:	6
Prerequisites:	None
Description of course content:	<p>Understanding and oral and written expression in English (level B1), skills development to promote a first approach to English as a foreign language and work in multicultural and multilingual contexts.</p> <p>A) GRAMMAR: Patterns and uses of verb tenses, conditionals: basic forms. special ways of making a conditional sentence, focus on modal verbs, passive, shifting the emphasis within the sentence, gerunds and infinitives, prepositional verbs and phrasal verbs.</p> <p>B) VOCABULARY: focus on describing people, describing places, daily routines, free time, travelling</p>

Outcomes:	<ul style="list-style-type: none">- to be able to express yourself correctly in English.- to analyse the basic principles of language and communication sciences.- to use written language appropriately (in Spanish and English)- to show skills for teaching the language.- to show skills to be dealt in multilingual contexts
Teaching methodologies:	Theoretical-practical methodology with some master classes to establish the fundamentals of the subject and practical workshops in which the students build their own learning. Likewise, oral and written tasks will be developed, individually and in groups.

Course Title:	English II (B1)
Degree programme:	Bachelor's Degree in Infant and Primary Education
Study level:	Bachelor's Degree
ECTS:	6
Prerequisites:	None
Description of course content:	<p>Understanding and oral and written expression in English (level B2), skills development to promote a first approach to English as a foreign language and work in multicultural and multilingual contexts.</p> <p>A) GRAMMAR. revision of verbal tenses, relative clauses: defining and non-defining. participles and infinitives, verb patterns ii. reduced infinitives, modal auxiliaries ii: probability and other uses, expressing habits: present habits, past habit. To be/to get used to, phrasal verbs.</p>
Outcomes:	<ul style="list-style-type: none"> - to be able to express yourself correctly in English. - to analyse the basic principles of language and communication sciences. - to use written language appropriately (in Spanish and English) - to show skills for teaching the language.

	- to show skills to be dealt in multilingual contexts
Teaching methodologies:	Theoretical-practical methodology with some master classes to establish the fundamentals of the subject and practical workshops in which the students build their own learning. Likewise, oral and written tasks will be developed, individually and in groups.

Course Title:	Morphosyntax and Semantics in the English Language
Degree programme:	Bachelor's Degree in Infant and Primary Education
Study level:	Bachelor's Degree
ECTS:	6
Prerequisites:	None
Description of courses content:	Semantic Fields and relations. Word Formation and Current English Grammar. Learning how to read and write. Main concepts and fundamentals: Main concepts and fundamentals. Morphology. Word formation and current English grammar, learning how to read, learning how to write, Semantic fields and its relations.

Outcomes:	<ul style="list-style-type: none">- to design and evaluate lesson plans and programmes- to analyse the factors involved in the English teaching-learning process.- to analyse current approaches to teaching second languages.- to address situations of language learning in multilingual contexts.- to develop and evaluate curriculum contents through teaching resources and promote the corresponding competencies.
Teaching Methodologies:	Theoretical-practical methodology with some master classes to establish the fundamentals of the subject and practical workshops in which the student builds their own learning. Likewise, oral and written tasks will be developed, individually and in groups.

Course Title:	School Placement I and II
Degree programme:	Bachelor's Degree in Infant and Primary Education
Study level:	Bachelor's Degree
ECTS:	20
Prerequisites:	None
Description of course content:	Educational centre observation and putting into practice the contents of the different subjects, lesson plans proposals and delivering lessons.
Outcomes:	<ul style="list-style-type: none"> - to integrate the skills acquired during the studies and reflect about them. - to analyse, interpret and summarise ideas taken from different sources. - to use an appropriate methodology for the development of review work or educational innovation. - to follow the written and typographical rules of an academic work - to promote the corresponding competencies.
Teaching Methodologies:	Theoretical-practical methodology with some master classes to establish the fundamentals of the subject and practical workshops in which the students build their own learning. Likewise, oral and written tasks will be developed, individually

	and in groups.
--	----------------

Course Title:	English Phonics
Degree programme:	Bachelor's Degree in Infant and Primary Education
Study level:	Bachelor's Degree
ECTS:	6
Prerequisites:	None
Description of course content:	The English sound system and the International Phonetic Alphabet, Synthetic Phonics: Theoretical principles and from theory to practice. Didactic resources for the work in the classroom. Basic theoretical background, Articulatory phonetics, English sounds, Synthetic phonics, Teaching synthetic phonics.
OUTCOMES:	<ul style="list-style-type: none"> - to design and evaluate didactic programmes. - to analyse the factors involved in the teaching-learning process of English. - to analyse current approaches to teaching second languages. - to addressing situations of language learning in multilingual contexts.

	<ul style="list-style-type: none"> - to develop and evaluate curriculum content through teaching resources and promote the corresponding competencies - to develop and evaluate curriculum contents through teaching resources - to promote the corresponding competencies
Teaching Methodologies:	Theoretical-practical methodology with some master classes to establish the fundamentals of the subject and practical workshops in which the students build their own learning. Likewise, oral and written tasks will be developed, individually and in groups.

Course Title:	Literature & Culture of English-Speaking Countries
Degree programme:	Bachelor's Degree in Infant and Primary Education
Study level:	Bachelor's Degree
ECTS:	6
Prerequisites:	None
Description of course content:	The study of the foreign language socio-cultural aspects and intercultural communication issues, the study of Anglo-Saxon literature. British Literature and Culture I: from Prehistory to the Middle Ages. Anglo-Saxon Literature II: Renaissance, Baroque, Reformation and Augustan Age (1485-1750). Anglo-Saxon literature III: pseudoclassicism,

	romanticism and Victorian era (1751 –1901), Modernism (1901 - 1945), late modernism (1946 - 1999) and 21st century, other literature written in English: Ireland, the United States and Australia.
Outcomes:	<ul style="list-style-type: none"> - to design and evaluate didactic programmes. - to analyse the factors involved in the teaching-learning process of English. - to analyse current approaches to teaching second languages. - to addressing situations of language learning in multilingual contexts. - to develop and evaluate curriculum content through teaching resources and promote the corresponding competencies - to develop and evaluate curriculum contents through teaching resources - to promote the corresponding competencies
Teaching Methodologies:	Theoretical-practical methodology with some master classes to establish the fundamentals of the subject and practical workshops in which the students build their own learning. Likewise, oral, and written tasks will be developed, individually and in groups.

Course Title:	Rhythm and Games
----------------------	-------------------------

Degree programme:	Bachelor's Degree in Infant and Primary Education
Study level:	Bachelor's Degree
ECTS:	6
Prerequisites:	None
Description of course content:	Pedagogical principles on body, musical, artistic, and creative expressions. Children's games and songs as teaching resources with ludic components to promote auditory, rhythmic, and vocal education. Body language theory and its uses in second language learning for infant and primary education. Musical education theory and its uses in second language learning. Game theories and their ludic approaches for Teaching and Learning. Games and songs as methodological resources for English as a foreign language subject in infant and primary education.
Outcomes:	<ul style="list-style-type: none"> - to design and evaluate didactic programmes. - to analyse the factors involved in the teaching-learning process of English. - to analyse current approaches to teaching second languages. - to addressing situations of language learning in multilingual contexts. - to develop and evaluate curriculum content through teaching resources and promote the corresponding competencies - to develop and evaluate curriculum contents through teaching resources

	- to promote the corresponding competencies
Teaching Methodologies:	Theoretical-practical methodology with some master classes to establish the fundamentals of the subject and practical workshops in which the student builds their own learning. Likewise, oral and written tasks will be developed, individually and in groups.

Course Title:	Second Language Learning
Degree programme:	Bachelor's degree in Infant and Primary Education
Study level:	Bachelor's degree
ECTS:	6
Prerequisites:	None
Description of course content:	Bilingual Education: basic concepts, second language acquisition at an early age, influencing factors in the learning of English and ICTs in foreign language teaching and learning process. Second language acquisition. Introducing a new language. The experience of teaching a new language. Approaches: CLIL and the use of ICTs, bilingualism and its basic concepts.
Outcomes:	- to design and evaluate didactic programmes.

	<ul style="list-style-type: none"> - to analyse the factors involved in the teaching-learning process of English. - to analyse current approaches to teaching second languages. - to addressing situations of language learning in multilingual contexts. - to develop and evaluate curriculum content through teaching resources and promote the corresponding competencies - to develop and evaluate curriculum contents through teaching resources - to promote the corresponding competencies
Teaching Methodologies:	Theoretical-practical methodology with some master classes to establish the fundamentals of the subject and practical workshops in which the student builds their own learning. Likewise, oral and written tasks will be developed, individually and in groups.

Course Title:	Bachelor's Degree dissertation
Degree programme:	Bachelor's Degree in Infant and Primary Education
Study level:	Bachelor's Degree
ECTS:	10

Prerequisites:	None
Description of course content:	<p>This is an in-depth study on a particular subject or subjects by summarising the theory and skills acquired throughout the degree. It could be a bibliographical review on a topic of interest or an educational innovation proposal.</p> <p>The dissertation will demonstrate the acquisition of the skills developed throughout the degree and may be submitted once the student has passed all the degree subjects.</p>
Outcomes:	<ul style="list-style-type: none"> - to design and evaluate didactic programmes. - to analyse the factors involved in the teaching-learning process of English. - to analyse current approaches to teaching second languages. - to addressing situations of language learning in multilingual contexts. - to develop and evaluate curriculum content through teaching resources and promote the corresponding competencies - to develop and evaluate curriculum contents through teaching resources - to promote the corresponding competencies
Teaching Methodologies:	<p>Theoretical-practical methodology with some master classes to establish the fundamentals of the subject and practical workshops in which the student builds their own learning. Likewise, oral and written tasks will be developed, individually and in groups.</p>

Master's degree

Bilingual Education

A 1-year degree (60 ECTS)

Subjects	ECTS	Term
Bilingual schools. Politics, organization and features	6	1
Data analysis and research on bilingual education	6	1
Innovation in CLIL	6	1
Language acquisition and second language learning	6	1
Theoretical bases of CLIL	6	1
Assessment and evaluation in CLIL	6	2
Curriculum and teaching planning	6	2
Materials and resources: analysis, production and adaptation	6	2
Teaching work placement	6	2
Master's Degree dissertation	6	2

Course Title:	Bilingual schools. Politics, organization and features
Degree programme:	Master's Degree in Bilingual Education
Study level:	Master's Degree
ECTS:	6
Prerequisites:	None
Description of course content:	<p>Historical review of political and social responses to multilingualism.</p> <p>Different types of bilingual education in the world.</p> <p>European policies in teaching, language development and multilingualism. Spanish national and regional policies for the development of multilingualism.</p> <p>Management and organization of bilingual centres in Spain. Integrated Curriculum features.</p> <p>Effectiveness of bilingual programs.</p> <p>Organization and management of bilingual schools.</p> <p>Language assistants: functions, timetables and linguistic contributions.</p> <p>Bilingual education community.</p>

	Specific learning needs in bilingual centres.
Outcomes:	<ul style="list-style-type: none"> - to analyse the different aspects on the topic of multilingualism. - to distinguish the different types of bilingual education and their political and social implications. - to know the European and Spanish policies for the development of multilingualism. - to know the organization and characteristics of bilingual schools in Spain. - to analyse the human and organisational components that lead to best practice of teaching in the bilingual centre. - to show skills in multilingual contexts.
Teaching Methodologies:	Theoretical-practical methodology with some master classes to establish the fundamentals of the subject and practical workshops in which the students build their own learning. Likewise, oral and written tasks will be developed, individually and in groups.

Course Title:	Data analysis and research on bilingual education
Degree programme:	Master's Degree in Bilingual Education
Study level:	Master's Degree
ECTS:	6
Prerequisites:	None

Description of course content:	<p>The concept of educational research.</p> <p>Research in education.</p> <p>Research Designs and Instruments.</p> <p>An approach to data analysis in Educational Research.</p> <p>Writing up the investigation report.</p> <p>Case analysis: Research in bilingual education</p>
Outcomes:	<ul style="list-style-type: none"> - to analyse different types of academic portals and sources. - to know the main research designs and the instruments. - to differentiate different data analysis types. - to know the different research report elements. - to know the main research results and their major publishing networks to be able to apply lifelong learning.
Teaching Methodologies:	<p>Theoretical-practical methodology with some master classes to establish the fundamentals of the subject and practical workshops in which the students build their own learning. Likewise, oral and written tasks will be developed, individually and in groups.</p>

Course Title:	Innovation in CLIL
Degree programme:	Master's Degree in Bilingual Education
Study level:	Master's degree
ECTS:	6
Prerequisites:	None
Description of course content:	<p>From research to educational innovation.</p> <p>Innovation project: Stages and elements.</p> <p>European programmes for innovation in bilingual centres and mobility between countries.</p> <p>Classroom, centre, and community innovation.</p> <p>Best practices in CLIL centres.</p> <p>Innovation through ICTs in bilingual schools: school networks.</p> <p>International online projects; learning beyond school contexts.</p>
Outcomes:	<ul style="list-style-type: none"> - to know the different elements and stages in an innovation project. - to analyse the different programmes that promote mobility and multilingualism in the EU countries. - to analyse existing innovation projects in bilingual centres, considering their strengths and weaknesses. - to plan projects that motivate students and integrate the country or countries' culture of the target language involving international experience. - to learn about different online resources that facilitate the exchange of information and learning with other teachers

	and members of the educational bilingual community centres.
Teaching Methodologies:	Theoretical-practical methodology with some master classes to establish the fundamentals of the subject and practical workshops in which the student builds their own learning. Likewise, oral and written tasks will be developed, individually and in groups.

Course Title:	Language acquisition and second language learning
Degree programme:	Master's Degree in Bilingual Education
Study level:	Master's Degree
ECTS:	20
Prerequisites:	None
Description of course content:	<p>The acquisition of the mother tongue(s) Behaviourism; Chomsky's nativism; Piaget's stages; Generativist semantics; structuralism, Interactionist theories, Main contributions of the cognitive neuroscience of language.</p> <p>The acquisition and learning of foreign languages (Stephen Krashen's monitor hypothesis), Swain's production and Long's interaction; main language cognitive neuroscience contributions.</p> <p>Variables in second language learning and types of bilingualism: Context, age and psychosocial factors.</p> <p>Language acquisition biological bases.</p> <p>Windows of opportunity and second language acquisition.</p>

	<p>Early bilingualism development.</p> <p>Language acquisition linguistic theories.</p> <p>Resources and methodologies for second language acquisition.</p> <p>Variables in the learning of second languages and types of bilingualism.</p> <p>Foreign language acquisition and learning.</p> <p>Structural methods for second language teaching.</p> <p>Functional methodologies for second language teaching.</p> <p>Other methodologies.</p>
Outcomes:	<ul style="list-style-type: none"> -to identify the main psycholinguistic theories on the acquisition of the mother tongue. -to identify and know the characteristics of the main stages and influencing factors in the acquisition and learning of the mother tongue, second and foreign languages. - to know the different types of bilingualism and its factors. - to understand the different approaches and methodologies in teaching foreign language(s) and understand their contributions to the social development of each era.
Teaching Methodologies:	<p>Theoretical-practical methodology with some master classes to establish the fundamentals of the subject and practical workshops in which the students build their own learning. Likewise, oral and written tasks will be developed, individually and in groups.</p>

Course Title:	Assessment and evaluation in CLIL
Degree programme:	Master's Degree in Bilingual Education
Study level:	Master's Degree
ECTS:	6
Prerequisites:	None
Description of course content:	CLIL: knowledge and principles (I). CLIL: knowledge and principles (II). Assessment and evaluation in CLIL. Assessment and evaluation in CLIL. Instruments and practices.
Outcomes:	<ul style="list-style-type: none"> - to analyse the concept of evaluation and its different typologies as well as its relationship with skills, objectives, content and learning outcomes. - to know the criteria for prioritising one, or more than one, by taking into account CLIL key concepts regarding assessment: when to prioritise content, cognitive or communicative aspects. - to apply the appropriate techniques for each type of evaluation. - to design rubrics and provide feedback to students. - to know different tools to evaluate the teacher's performance and the successful outcomes in CLIL lessons
Teaching Methodologies:	Theoretical-practical methodology with some master classes to establish the fundamentals of the subject and practical workshops in which the students build their own learning. Likewise, oral and written tasks will be developed, individually and in groups.

Course Title:	Curriculum and teaching planning
Degree programme:	Master's Degree in Bilingual Education
Study level:	Master's Degree
ECTS:	6
Prerequisites:	None
Description of course content:	<p>The study of the foreign language socio-cultural aspects and intercultural communication issues, the study of Anglo-Saxon literature.</p> <p>British Literature and Culture I: from Prehistory to the Middle Ages.</p> <p>Anglo-Saxon Literature II: Renaissance, Baroque, Reformation and Augustan Age (1485-1750).</p> <p>Anglo-Saxon literature III: pseudoclassicism, romanticism and Victorian era (1751 –1901).</p> <p>Modernism (1901 - 1945).</p> <p>Late modernism (1946 - 1999) and 21st century.</p> <p>Other literature written in English: Ireland, the United States and Australia.</p>
Outcomes:	<ul style="list-style-type: none"> - to differentiate the different levels of curricular specification. - to reflect on the lack of a national curriculum for bilingual centres and to be aware of the difficulty of adapting the monolingual autonomic curricula to the bilingual one. - to analyse the elements of CLIL lesson programming. - to develop a lesson plan/unit for CLIL contexts, integrating the 4Cs.

	- to know the necessary elements for the proper development of CLIL lessons.
Teaching Methodologies:	Theoretical-practical methodology with some master classes to establish the fundamentals of the subject and practical workshops in which the students build their own learning. Likewise, oral, and written tasks will be developed, individually and in groups.

Course Title:	Materials and resources: Analysis, Production and Adaptation
Degree programme:	Master's Degree in Bilingual Education
Study level:	Master's Degree
ECTS:	6
Prerequisites:	None
Description of course content:	<p>General resources for the teacher and students in the CLIL lessons.</p> <p>General study and classification of materials according to different criteria in the CLIL lessons.</p> <p>Production of CLIL personalised material depending on students' characteristics and groups' features.</p> <p>Adaptation of CLIL materials depending on students' linguistic competence and quality assessment of materials.</p> <p>Development of CLIL didactic units and CLIL project-based learning.</p>
Outcomes:	<p>- to know the CL basic materials characteristics.</p> <p>- to know how to adapt original texts in English to different levels of linguistic competence.</p>

	<ul style="list-style-type: none"> - to adapt teaching materials for bilingual teaching based on the CLIL approach, considering the students' linguistic and cognitive abilities. - to have the necessary knowledge to evaluate materials according to CLIL criteria. - to design original CLIL materials.
Teaching Methodologies:	Theoretical-practical methodology with some master classes to establish the fundamentals of the subject and practical workshops in which the student builds their own learning. Likewise, oral and written tasks will be developed, individually and in groups.

Course Title:	Theoretical bases of CLIL
Degree programme:	Master's Degree in Bilingual Education
Study level:	Master's Degree
ECTS:	6
Prerequisites:	None
Description of course content:	<p>Content and Language Integrated Learning (CLIL) .</p> <p>Teaching through CLIL</p> <p>Introduction to assessment in CLIL</p> <p>Introduction to materials for CLIL</p>

Outcomes:	<p>To know about:</p> <ul style="list-style-type: none"> - CLIL concept, origin, extent, and defining characteristics of Soft vs Hard CLIL programs defining characteristics of Soft vs Hard CLIL programs. - The framework of Coyle's 4Cs. - The different types of language in CLIL class. - The taxonomies of Bloom and Anderson & Krathwohl and their application in CLIL. - The role of language and content in CLIL. - Basic foundations of CLIL teacher training and the competencies of the - CLIL teacher profile.
Teaching Methodologies:	<p>Theoretical-practical methodology with some master classes to establish the fundamentals of the subject and practical workshops in which the student builds their own learning experience. Likewise, oral and written tasks will be developed, individually and in groups.</p>

Course Title:	Teaching Placement
Degree programme:	Master's Degree in Bilingual Education
Study level:	Master's Degree
ECTS:	6
Prerequisites:	None
Description of course content:	<p>Work placements in external centres or institutions.</p> <p>Writing up of the Practicum Report.</p>
Outcomes:	<ul style="list-style-type: none"> - to show the ability of putting the acquired knowledge into practice. - to be able to relate the latest theories on education with aspects to improve the daily teaching practice in the classroom and the centre. - to show skills linked to the development of proposals for improvement, in collaboration with other professionals. - to be able to handle human relations in their professional and social contexts to improve the teaching-learning processes. - to teach by taking account the CLIL approach at any educational stage. - to adapt their teaching work both to the available materials and to the diversity of students that can be found at each educational stage.
Teaching	Tutorials and independent individual work guided by the placement, university and centre tutors

Methodologies:	Writing up of the report
-----------------------	--------------------------

Course Title:	Master's degree dissertation
Degree programme:	Master's Degree in Bilingual Education
Study level:	Master's Degree
ECTS:	6
Prerequisites:	None
Description of course content:	<p>Master dissertation basic approaches: General characteristics, regulations and structure.</p> <p>Design, preparation and planning of the proposal.</p> <p>Written and oral work presentation in front of an expert panel.</p>
Outcomes:	<ul style="list-style-type: none"> - to learn to search for information and access different databases. - to be able to collect materials, select sources and prepare a research paper with orderly and coherent writing. -to implement and evaluate innovative teaching practices, based on the scientific investigation. - to know and apply the minimum fundamentals of research design in the field of bilingual education. - to critically analyse scientific articles.

	- to prepare and present an original academic paper.
Teaching Methodologies:	Tutorials, independent work guided by a university tutor. Writing up the master's dissertation.

Teacher Training for Secondary Education and Bachelors, Vocational Training and Language Teaching - Major in Foreign Language (English)

A 1-year degree (60 ECTS)

Subjects	ECTS	Term
Complements for disciplinary training in Foreign Language (English)	6	1
Teaching innovation and initiation to educational research in a Foreign Language (English)	6	2
Final Project	6	2
Work Experience	12	2
Learning and teaching a Foreign Language (English)	12	1 and 2

Course Title:	Complements for disciplinary training in Foreign Language (English)
Degree programme:	Master's Degree in Teacher Training for Secondary Education and Bachelors, Vocational Training and Language Teaching Specific in Foreign Language (English)
Study level:	Master's Degree
ECTS:	6
Prerequisites:	None
Description of course content:	<p>Bilingualism and multilingualism. The History of the English Language: towards a Lingua Franca.</p> <p>The evolution of English Language Teaching. English for Specific Purposes (ESP).</p> <p>Curricular organization and lesson planning in the EFL classroom.</p> <p>Evaluation criteria and assessment types in the EFL classroom. The Learning Unit in Secondary and Bachelors.</p> <p>Syllabus creation. Attention to diversity and extracurricular activities.</p>
Outcomes:	<ul style="list-style-type: none"> - To know the formative and cultural value of the subjects corresponding to the specialization and the contents that are studied in the respective teachings. - To know the theoretical-practical developments of the teaching and learning of the subjects corresponding to specialization. - Identify problems related to the teaching and learning of the subjects of the specialization and propose alternatives and solutions.
Teaching Methodologies:	Theoretical-practical methodology with some master classes to establish the fundamentals of the subject and practical workshops in which the students build their own learning. Likewise, oral and written tasks will be developed, individually and in groups.

Course Title:	Teaching innovation and initiation to educational research in a Foreign Language (English)
Degree programme:	Master's Degree in Teacher Training for Secondary Education and Bachelors, Vocational Training and Language Teaching Specific in Foreign Language (English)
Study level:	Master's Degree
ECTS:	6
Prerequisites:	None
Description of course content:	<ul style="list-style-type: none"> - Innovation in education - Innovation to didactic research - Evaluation and data collection - Educational research methods and English learning - Experiences and good practices of innovation and research in the field of English
Outcomes:	<ul style="list-style-type: none"> - To know: the formative and cultural value of the subjects corresponding to the specialization and the contents that are studied in the respective teachings; the history and recent developments of the subjects and their perspectives for to be able to transmit a dynamic vision of them; contexts and situations in which curricular content is used and applied. - To integrate this knowledge in audiovisual and multimedia communication in the process of teaching and learning. - To know strategies and evaluation techniques and understanding evaluation as a regulations tool and an effort stimulator.
Teaching Methodologies:	Theoretical-practical methodology with some master classes to establish the fundamentals of the subject and practical workshops in which the students build their own learning. Likewise, oral and written tasks will be developed, individually and in groups.

Course Title:	Final Project
Degree programme:	Master's Degree in Teacher Training for Secondary Education and Bachelors, Vocational Training and Language Teaching Specific in Foreign Language (English)
Study level:	Master's Degree
ECTS:	6
Prerequisites:	None
Description of course content:	<p>The master's degree Final Project will be, fundamentally, an applied transversal project, developing a curricular project or didactic unit applied to practice (of the internship center), collecting data from their intervention and preparing an innovative improvement proposal as an initiation to educational research.</p> <p>It can be an analytical and monographic study; a comparative analytic study; or a corporative analysis and study.</p>
Outcomes:	<ul style="list-style-type: none"> - To elaborate proposals based on the acquisition of knowledge, intellectual and emotional skills and aptitudes. - To know and apply resources, information strategies, tutoring and academic and professional orientation. - To participate in the definition of the educational project and in the general activities of the center considering the criteria of quality improvement, attention to diversity, prevention of learning and coexistence problems. - To know and apply basic research and evaluation methodologies and techniques and be able to design and develop research, innovation and evaluation.
Teaching Methodologies:	Theoretical-practical methodology with some master classes to establish the fundamentals of the subject and practical workshops in which the students build their own learning. Likewise, oral and written tasks will be developed, individually and in groups.

Course Title:	Work experience (Practicum)
Degree programme:	Master's Degree in Teacher Training for Secondary Education and Bachelors, Vocational Training and Language Teaching Specific in Foreign Language (English)
Study level:	Master's Degree
ECTS:	12
Prerequisites:	None
Description of course content:	Practicum in educational centers. Implementation of the teaching skills of the subjects in real teaching contexts. Elaboration of the Practicum Memorial.
Outcomes:	<ul style="list-style-type: none"> - Getting to know the characteristics of the students, their social context and their motivations on-site. - To identify public services and community entities with which you can collaborate with the center and to promote and plan, in collaboration with the management team, the actions necessary for better attention to the students. - Analyze the organization and operation of the center to coordinate guidance, personal, academic and professional of the students in collaboration with the members of the school community. - To know the regulations and institutional organization of the educational system and models of improvement of quality with application to educational centers.
Teaching Methodologies:	Theoretical-practical methodology with some master classes to establish the fundamentals of the subject and practical workshops in which the students build their own learning. Likewise, oral and written tasks will be developed, individually and in groups.

Course Title:	Learning and teaching a Foreign Language (English) (Annual)
Degree programme:	Master's Degree in Teacher Training for Secondary Education and Bachelors, Vocational Training and Language Teaching Specific in Foreign Language (English)
Study level:	Master's Degree
ECTS:	12
Prerequisites:	None
Description of course content:	In this course that is taught in both semesters you will learn: Different methodologies in the classroom of English as a foreign language; How to teach critical thinking; Project-based learning; Methods, procedures and techniques in language teaching; Teaching four skills; Practice. Lesson planning; The teaching Process; Teaching the Language; The Syllabus; Lesson Planning; Attention to Diversity
Outcomes:	<ul style="list-style-type: none"> - Identify problems related to the teaching and learning of the subjects of the specialization and propose alternatives and solutions. - Critically analyze the performance of teaching, good practices and guidance using quality indicators. - To know the history and recent developments of the subjects and their perspectives to be able to transmit a dynamic vision of them. - To know the formative and cultural value of the subjects corresponding to the specialization and the contents that are studied in the respective teachings.
Teaching Methodologies:	Theoretical-practical methodology with some master classes to establish the fundamentals of the subject and practical workshops in which the students build their own learning. Likewise, oral and written tasks will be developed, individually and in groups.

Faculty of Social and Legal sciences

Bachelor's degrees:

Communication, Cinema and Protocol and Events Organization

Modules	ECTS	Terms	Years
✓ English Grammar and Conversation	6	1	1
✓ English for Media Professionals	6	2	2
✓ English for Protocol and Events Organization Professionals	3	1	3
✓ Formal English for Job Interviews and Employment in the cinema industry	6	2	4

Course Title:	English Grammar and Conversation
Degree Programme:	Degree in Communication
Study Level:	Bachelor's Degree
ECTS:	6
Prerequisites:	Have an A1.2 level of English

**Description of
Course Content:**

Students will learn the following grammar topics:

Topic 1: Personal pronouns, questions, present simple, and present continuous

Topic 2: Past simple, regular and irregular verbs, past continuous, time sequences and connectors

Topic 3: Plans/Predictions, present continuous, and defining relative clauses

Topic 4: Present perfect, past simple, and adjectives (ending in –ed and –ing)

Topic 5: Adjectives and adverbs, superlatives, and quantifiers

Topic 6: Future tense and verbs review (past, present, and future)

Topic 7: Uses of the infinitive and gerund

Topic 8: First conditional, possessive pronouns, English grammar, and conversation

Topic 9: Second conditional, present perfect, and past simple

These topics will all be used during English conversations.

Outcomes:	Students will have the capability to speak and write fluently, as well as comprehend an English conversation.
Teaching Methodologies:	<ul style="list-style-type: none"> • Lectures • Individual Study • Problem Solving • Project Based Learning • Face-to-face tutoring (Individually and/or group) • Hetero-evaluation, self-evaluation, and peer-evaluation

Course Title:	English for Media Professionals
Degree Programme:	Degree in Communication
